Education

Bachelor of Engineering *Chennai, IN* **2021 - 2025**

Computer Science Engineering
Rajiv Gandhi College Of Engineering, Sriperumbudur, Chennai
Graduated: 2025 | CGPA: [7.9]

Career Objective

Software Developer

Front-End Developer with strong proficiency in **React.js, and modern frontend frameworks**, passionate about building scalable, enterprise-level web and mobile applications. Skilled in converting user stories into production-ready solutions, troubleshooting issues proactively, and delivering **bug-free, high-performance products**. Experienced in working within **Agile processes**, collaborating with cross-functional teams, and mentoring junior developers to drive technical success. Excited to join **Epik** contribute innovative solutions that enhance operational efficiency, optimize user experiences, and support the company's mission of advancing industrial technologies.

Projects

1. Advanced Photography Portfolio Website

- https://manivannan-photography.vercel.app/
- **Tech Stack:** TypeScript, React.js, Vite, CSS3, Framer Motion
- Built a fully responsive and visually engaging portfolio website for photographers.
- Used semantic HTML and modern CSS for accessibility and SEO.
- Integrated Framer Motion for animations and configured a custom Vite setup.
- Deployed on GitHub Pages / Vercel with optimized Lighthouse scores.

2.Kanban Task Management Board

- https://project2-zeta-ivory.vercel.app/
- **Tech Stack:** React.js, Tailwind CSS, LocalStorage
- Built a Trello-like Kanban Board with task creation, movement, and deletion.
- Used react-beautiful-dnd for drag-and-drop and Tailwind for modern UI.
- Used localStorage for state persistence.
- Focused on reusability, scalability, and responsive design.

Skills

- Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), Bootstrap, ReactJS,TypeScript
- UI/UX Implementation – Figma to code conversion, cross-browser compatibility, mobile-first layouts
- Development Tools: Git, VS Code, , NPM
- Others: Responsive Design, REST APIs, Figma to Code conversion
- Soft Skills – Problem-solving, communication, teamwork, adaptability

Self-Learning & Independent Study

- **Frontend Development with React** – Self-learned via YouTube tutorials and hands-on projects
- **Responsive Web Design & CSS Mastery** – Learned through ChatGPT guidance and YouTube
- **JavaScript Fundamentals & DOM Manipulation** – Practiced using online resources and personal projects
- **Version Control with Git & GitHub** – Gained through self-practice and integrating into personal projects

Why Me –Fit for Epik

- **Portfolio Proof** – GitHub projects showcasing front-end work and a commitment to learning modern practices.
- **Enterprise-Ready Frontend Skills** – Proficient in **React.js, HTML5, CSS3, and JavaScript (ES6+)**, with experience in building scalable, user-centric applications.
- **Full Development Awareness** – Hands-on knowledge of backend frameworks like **Django** and **Flask**, enabling seamless collaboration with cross-functional teams.
- **Agile & Problem-Solving Mindset** – Experienced in following Agile workflows, converting user stories into robust solutions, and resolving issues proactively to ensure high availability.
